

American Clipper Owners Club

Hello American Clipper Owner!

We came across your rig and did not see an American Clipper Owners Club number displayed, and thought we would invite you to join our organization.

The American Clipper Owners Club was founded in 1982 by Robert Cornwell, a dentist and Clipper owner, to preserve the history of the American Clipper, and help its members overcome technical difficulties that can be experienced as these motorhomes age.

Our web page is located at <http://www.americanclipper.com>. Here members can exchange information and ask technical questions and get replies from knowledgeable owners.

The American Clipper Owners Club has three national outings per year. The majority of our membership (over 500) have owned their rigs for more than 6 years and are familiar with its many quirks and advantages.

The ACOC also maintains a supply of parts that are mostly unique to the Clipper. For instance, members can purchase the unique rubber molding that goes around the windows; valve assemblies for black and grey water and faucets for lavatory and kitchen sinks. We also maintain a supply of the American Clipper decal that goes on the 'nose' and 'tail' of the rig, clearance lights, tail light assemblies and various gaskets and 'o' rings.

The benefits of joining the American Clipper Owners club are indeed numerous. We take pride in our rigs and have fun when we gather to swap stories, technical information and good food.

As a member you will receive a directory of members and a quarterly newsletter crammed with information specific to the American Clipper.

Won't you join us and share in the fun? Dues are just \$20 per year.

If you join, please mention that you received this note from:

Member Name _____ ACOC No. _____

Address: _____

City _____ State _____ ZIP _____

**A MEMBERSHIP APPLICATION IS ON THE REVERSE.
WE HOPE YOU WILL JOIN US.**

American Clipper Owners Club
